

Public Health Praxis – RYSE Center

Grounded in:

1. Ecological Model of Health
2. Social Determinants of Health
3. Racial Justice and Anti-Oppression
4. Social Science models of program design and evaluation
5. Cross-sector collaboration and resource cultivation

Building towards:

1. Systems change and culture shift
2. Structural conditions of (dis)ease
3. Resistance and liberation
4. Radical inquiry; media, art, and culture as platforms of youth generated narratives.
5. 'Beloved community' and redistribution of wealth and burden
