Honorable Tony Coelho, PIPC Chairman

• Tony Coelho is a former United States Congressman from California and primary author and sponsor of the Americans with Disabilities Act
  – “Nothing about us without us”
• Tony is a person with epilepsy
• PIPC began as a coalition supporting PCORI’s creation, with a voice and a vote for patients and people with disabilities on its Board of Governors
  – No patient is average
Different People Respond Differently to the Same Drugs
For many conditions, such disparities are reflected in clinical knowledge – but not yet in research literature
What do Patients Want from CMMI?

- Establish, via rulemaking, the “patient-centeredness criteria” mandated under Section 1115A of the Affordable Care Act, which requires evaluation of alternative payment models (APMs) against patient-centeredness criteria.

- Convene patient advisory panels for each of the Innovation Center models under development as well as those currently being implemented, to help ensure each demonstration is meaningfully evaluated against appropriate measures of patient-centeredness.

- Define “informed decision-making” as a core criterion of patient-centeredness and a goal of each alternative payment model.
What do Patients Want from All Payers?

• Emphasis on achieving outcomes that matter to patients, and capturing real world and patient-centered data
  – *Informed healthcare*

• Investment in innovative value assessment methodologies
  – *Getting beyond QALYs*

• Engagement of patients and providers with condition-specific expertise in making coverage decisions
  – *Align coverage with clinical knowledge*
