Sample Collection Map: Cores 1-8

A surreal landscape featuring a glowing, ethereal river that flows through a valley. The river's surface is shimmering with a blue and white light, suggesting a magical or otherworldly energy. In the background, majestic mountains are silhouetted against a sky filled with stars and a large, pale moon. A vibrant aurora borealis in shades of green and blue dances across the upper right portion of the sky. The foreground shows a grassy field with a wooden fence and some purple flowers. The overall atmosphere is dreamlike and expansive.
